”<https://help.netflix.com/en/node/32950> 。 This Netflix e-voucher shall be valid as stated on this e-
voucher. This Netflix e-voucher is non-refundable. Once a Netflix e-voucher is applied to an
account, the user can watch Netflix until the e-voucher balance runs out. This Netflix e-voucher
cannot be reloaded. Please do not share this Netflix e-voucher serial number or e-voucher code
with anyone except the intended recipient. Users can redeem multiple Netflix e-vouchers. Your
available balance will increase with each e-voucher the user adds. Once a user redeemed this
Netflix e-voucher, the user can check the available balance on the Billing Details or Membership
page. Multiple e-vouchers are consumed one at a time in the order they were redeemed. This may
result in two e-voucher charges that add up to your monthly plan price: one partial charge to
consume the final balance of an older e-voucher, and a second partial charge on a newer e-
voucher. Users can use a Netflix e-voucher purchased in a different country as long as the e-
voucher is in the same currency as their Netflix bill. If this Netflix e-voucher amount does not cover
the cost for a full month of your current plan, Netflix will prorate the account for the number of days
it covers. Once the user redeems this Netflix e-voucher, Netflix will take up to 60 minutes for the
hold to be removed. To check this Netflix e-voucher balance, please refer to the website “Check
your e-voucher card balance” <https://help.netflix.com/en/node/32950>.
