

This is a gift card for a one time donation. CO2Esto offers an opportunity for an intangible ethical gift to curb climate change. You can estimate the amount of CO2 emissions that can be prevented with the amount of the gift card at co2esto.com/kauppa/valittu-co2-maara. However, please note that in the case of a gift card, a 10% processing fee will be deducted from the amount. The gift card can be shown in the accompanying text to correspond to, for example, the recipient's driving or leisure flight in the previous year. The amount of offset emissions can be estimated, for example, with CO2Esto's e-commerce calculators co2esto.com/kauppa. CO2Esto's emissions trading service operates within the EU's official emissions trading system, which is the cornerstone of EU climate policy. For more information on the reliability of the cancellation, please visit co2esto.com/yritys/vaikuttavuus-ja-lapinakyvyys.
